

Connections Seminar: The Essentials of Class Participation

Presented by A/Prof Cathy Sherry, Scientia Education Fellow, Faculty of Law

Class participation is a key element of good teaching and learning.

It makes classes enjoyable for students, and it enables teachers to gauge how much their students have understood. All students want to participate but it can be harder for some than others. This seminar will discuss why we should use class participation and how we can make it work for all students.

This presentation aligns with the following UNSW Communities of Practice 'Flipped Learning.' More information can be found [here](#).
