

## Assessing Graduate Capabilities

UNSW has articulated a set of desired learning outcomes, or **Graduate Capabilities**, for *all* UNSW students. These graduate capabilities are embedded in the design of programs and courses, and their assessment is a crucial part of the assurance of academic quality and standards.

UNSW students are expected to be **globally focussed graduates** who are **rigorous scholars**, capable of **leadership** and **professional practice** in an **international** community. Assessment designs need to incorporate the development of the knowledge, skills, and dispositions which underpin these graduate capabilities, within the context of the disciplines of academic programs and courses.

### Resources include:

- **Global Citizenship**

#### **Assessing Graduate Capabilities**
