1 AWARDS FOR PROGRAMS THAT ENHANCE LEARNING

1.1 Objective
To recognise learning and teaching support programs and services that make an innovative and outstanding contribution to student learning outcomes and the student experience of higher education.

Number of nominations

Each eligible institution may submit up to two Program Award nominations with a maximum of one nomination in any category.

Nominees may be included in only one Program Award nomination in any year, except if a nominee forms part of a team nomination and is not the lead nominee.

NOTE: In 2018, six Program Awards will be granted across all categories, and there will be one Award per category. A maximum of two Program Awards submission per institution across all categories.

Eligibility

Nomination is open to all programs and services that enhance student learning in higher education. Nominations must be supported by the nominating institution.

Programs should be broader than one or two subjects, or a limited service that involves only a few students. For example, programs may involve a service or program provided at the institutional, faculty or school level, a program of study across number of years, or a service or program directed at particular groups of students.

Eligibility of previous recipients of Awards or Citations

Programs that have received a Program Award are ineligible for renomination.

Recipients of a Teaching or Program Award (including Carrick and ALTC Awards) can only renominate if they form part of a team nomination and are not the lead nominee. The new nomination should not substantially replicate the original nomination.

Nomination or receipt of a Citation does not affect eligibility for a Program Award.

Eligibility of team members

Team nominations can only include members with a contribution of 10 per cent or higher.

In some circumstances a team member(s) for a program award may not be employed by the nominating institution. This is acceptable providing the program is a program or service at the eligible institution that enhances student learning and the project leader and majority of team members are employed by the nominating institution. The funding for program award recipients is provided to the nominating institution, and all team members should be aware of this upon nominating.
1.2 Categories

Nominees must select the relevant program category below. The Program Award categories are:

1 **Widening participation**, encompassing approaches to learning and teaching, and/or student experience which enhance student access, widen participation, and support progression.

2 **Educational partnerships and collaborations with other organisations**, encompassing partnerships between universities, and universities and other organisations—such as schools, private higher education providers, registered training organisations, professional bodies, businesses and industries in collaborative approaches to learning and teaching.

3 **Innovation and flexibility in curricula, learning and teaching**, encompassing approaches to learning and teaching that afford flexibility in time, place and/or mode of learning and innovations that encourage novel approaches to learning and teaching, innovations that align assessment with curriculum design, innovations that encourage or support multidisciplinary, research-based learning and teaching approaches, innovations that utilise the potential of new and/or emerging technologies.

4 **Postgraduate education**, encompassing programs and other activities that focus on postgraduate students, postgraduate coursework learning and teaching, postgraduate research supervision and research higher degree candidature and postgraduate learning support.

5 **Student experiences and services supporting learning, development and growth in higher education**, encompassing services directly related to student learning such as services for specific groups of students, information access, course advising, language and learning support, counselling and disability support. Quality of learning engagement and other learning and teaching experiences within large student groups to sustain and retain students, student enhancement, whole personal development learning and the quality of the first-year student experience.

6 **Global citizenship and internationalisation**, including valuing and enhancing the international student experience, student exchange, international recruitment, transition programs for international students and internationalising the curriculum.

It is anticipated that Program Awards will be distributed across the six categories, although the pattern of distribution will ultimately be determined by the quality of nominations.

1.3 Assessment criteria

All nominations will be assessed on the evidence provided in response to the following four criteria which will be given equal consideration by the assessors:

1 **Distinctiveness, coherence and clarity of purpose** – extent to which the program has clear objectives and systematic approaches to coordination, implementation and evaluation.

3 **Breadth of impact** – extent to which the program has led to widespread benefits for students, staff, the institution, and/or other institutions, consistent with the purpose of the program.

The assessment will also take into account:
