

## Learning and Teaching Forum 2013 Online and Blended Education

Never Stand Still

Learning and Teaching Unit

# Going online: Discover, Explore, Enrich

### Why go online?

Whether you move to fully online or a blend of on campus and online delivery, technologies can support digital literacy, independent learning and other graduate capabilities, as well as enabling efficiencies in managing learning activities and giving feedback.

### The Learning and Teaching Forum will:

- Introduce UNSW strategy for online and blended learning.
- Focus on how the online environment can be used to improve student learning.
- Showcase some technology and teaching strategies that are appropriate to any context.
- Suit those who are starting out in teaching online as well as those who are experienced and are looking for new ideas.
- Provide an opportunity for participants to get TELT support or course design advice.

### Keynote Speaker:

## Dr Roderick Sims

*Senior Lecturer in Online Learning,  
University of Southern Queensland*

Dr Roderick Sims has held senior academic posts in Australian universities before commencing consultancy services to higher education, specialising in design strategies for online learning with clients including public and private educational providers in Australia, New Zealand and the United States. He is currently working at the University of Southern Queensland, supporting academic staff with course design strategies to maximise the benefits of online learning.
