mediaUcreate is an online Moodle site designed to assist staff in developing educational media. Now on offer is a face to face series of workshops that will give you an opportunity to try out ideas in a supportive and collaborative environment. Please join us.

Week 1

Creative Commons Media

Using a Mobile Device

Where do I find creative commons media - images, audio, video? How do I use my mobile device to capture video for educational purposes?

Week 2

Screencasting

Audio

How do I capture my screen with accompanying audio and webcam? How do I record and edit audio only?

Week 3

Production

Editing

How do I produce a professional video such as a guest interview? How do I edit video using available software?

Week 4

Interactive

Assess

How do I create interactive, multimodal resources? How do I assess and give feedback using media?
